One of the biggest producers of prints
in Europe

Emerson combines nearly 30 years of market experience, professionalism, and innovation in solutions offered to its customers.

We have been operating in the market since 1992. Thanks to dynamic growth, we are one of Europe's largest producers of forms and special prints, such as scratch cards or classified documents.

We continuously invest in modern technologies and a multifunctional machine park, thanks to which we constantly expand the range of our products and services.

What distinguishes us, is the innovation of solutions and an extensive product portfolio. We skillfully combine various printing, typesetting, and finishing techniques. We use non-standard formats and raw materials to meet the sophisticated expectations of our customers. We also provide co-packing, design, concept development, and many other operational solutions dedicated to business.

Briefly about us:

- ✓ 30 years on the market
- ✓ 200 employees
- ✓ 100% Polish capital
- ✓ annual turnover 162 million PLN

We process annually:

- ✓ 15 thousand tons of paper
- ✓ 800 million sheets of A4 paper
- ✓ 100 million sheets of A4 labels
- ✓ 300 million scratch-off coupons

360

Certificates:

- ✓ ISO 9001:2015
- ✓ ISO 14001:2015
- ✓ ISO/IEC 27001:2017
- ✓ FSC certificate

This group of products symbolizes excellence in stationery for office, business and home use. The brand's absolute novelty - the white A4 „Emerson Office Paper” and its equivalents in A5 and DL format (perfect for printing prescriptions) - as well as the long-established and trusted range of original and reliable self-adhesive labels with QCT security edge, now available in a unique graphic design, inspired by the world of predatory cats. The high quality of our solutions becomes even more recognizable thanks to modern and unique packaging, which cannot be ignored. **You will find many different varieties of copying paper and labels on the market, but only one „royal family”, exclusively from Emerson Polska!**

Let's make a five-star office!

White photocopy paper

Ideal for versatile use wherever you need it — whether in a busy office environment or the comfort of your own home.

The paper, with its characteristic tiger on the wrapper, offers trouble-free operation in modern office equipment, printers, and photocopiers. It is designed for laser copying, black and white printing, copying, writing, and even drawing. Use it whenever you need to print any presentations, charts, colorful graphics, business and non-business correspondence, any newsletters as well as sales reports and black and white text. The paper will provide optimum quality for photos and information materials as well as good, clear contrast.

Available in version:

TIGER

- weight: 80 g/m²
- whiteness: 146 CIE
- available formats: A4, A5, 1/3A4
- package - 500 sheets

MAXX WHITE

- basis weight: 75 g/m²
- whiteness: 161 CIE
- available formats: A4
- package - 500 sheets

White EKO copier paper

High-quality, universal paper intended for use in laser and inkjet printers, copiers and fax machines.

It is an ecological product made of 100% recycled paper. It has a natural, eye-friendly beige tint.

SUPER WHITE photocopy paper

Ensures fast and trouble-free operation of printers and copiers.

Ideal for daily use for internal correspondence, printing text, tables, color charts and home use. High whiteness of paper.

Paper cubes

Paper cube unglued white or colored.

Paper cube is a handy and practical piece of paper for writing down, passing information, and short notes. They can be used not only in every office but also at home or school. They are available as a refill to the container or as a stand-alone notepad.

Dividers are used to organize things in binders. You can colorfully separate documents, for example by month or document type. This will help you find what you are looking for quicker. The dividers are made of cardboard and have holes on the side to fit all standard binders.

Antibacterial self-adhesive labels

The paper is protected against bacteria with a biocidal active substance that protects the paper against the colonization of bacteria and other microorganisms.

The effectiveness of this method is scientifically proven. The antibacterial paper is therefore protected against many bacteria. Tests have confirmed that Gram-negative, Gram-positive, and antibiotic-resistant bacteria, such as MRSA, do not grow on antibacterial paper.

Self-adhesive labels A4

Self-adhesive labels are supplied on sheets of A4 size.

Works with all types of dot matrix printers, ink jet printers, and most laser printers (see printer manufacturer's recommendations). Available with Quatro Clean Technology - i.e., with safety edges that prevent glue build-up in the printer mechanism. The adhesive has good adhesion to the printer mechanism and bonding properties on a wide range of materials. The structure of the front surface ensures excellent toner binding and print resolution.

A pack of labels contains 100 sheets of A4. Labels are also available in packs of 1000 sheets.

The era of safe shopping is coming

More than 90% of receipts issued at cash registers contain toxic bisphenols, easily penetrating through the skin of anyone who comes in contact with them.

However, the era of the Healthy Receipt is coming. The era of safe shopping!

Healthy Receipt thermal rolls

At Emerson Polska, we believe that human health is an unrivaled value, and if any of the products you use every day could be a threat to it, it's worth taking every possible step to eliminate as many risk factors as possible.

This is how the idea of the Healthy Receipt was born, a solution free not only of harmful bisphenol A and S, but also of any phenols. Thanks to them, shoppers can fully enjoy their shopping experience and checkout staff is not exposed to toxic bisphenol!

"Healthy Receipt" thermal rolls:

- are free of bisphenol (including BPA and BPS) and any phenols;
- are made of heat-sensitive paper with a basis weight of $50 \pm 6 \text{ g/m}^2$;
- paper manufacturer guarantees the durability of the printout for up to 10 years;
- possible printing according to individual demand and graphic design.

BPA-free thermal rolls

They are free of bisphenol A (belongs to the BPA free category). The production process also includes designing and printing additional information or advertising on the rolls.

The highest quality of Emerson thermal rolls ensures the comfort and safety of users. The rolls are packed in a heat-shrinkable film to ensure high aesthetics and product durability.

- made of heat-sensitive paper with a basis weight of $50 \text{ g/m}^2 \pm 6 \text{ g/m}^2$
- the paper manufacturer guarantees the durability of the printout for up to 7 years
- print possible according to individual demand and graphic design.

Self-copy rolls

Self-copy rolls consist of two webs of paper. The first web is made of offset paper, the second one of self-copy paper.

The self-copy paper is coated with SC (Self Contained) microcapsules. Under mechanical impact, the microcapsules burst and cause printing on the paper.

Self-copy rolls are warranted for 5 years for the ability to copy paper and 25 years for the durability of copies. Also available are chemical self-copy rolls used in devices where no ribbon is used.

Chemical self-copy rolls					
rs07620wchemk	76	20	1+1	10	90

Offset rolls

Offset rolls are produced from white, wood-free, and dust-free offset paper.

The use of high-quality offset paper in the production of cash register rolls ensures the long-lasting and trouble-free operation of counting machines.

The typical purposes for offset rolls are cash registers and ATMs.

Plotter and photocopy rolls

Universal white paper, perfect for printouts on all types of ink jet plotters and photocopiers.

Available in basis weight 80 g/m² (plotters + photocopy in roll) or 90 g/m² (plotters).

Paper rolls are packed in a carton, additionally, a roll in a carton is protected with foil.

Types of papers:

- plotter paper: length 50 m, sleeve 50 mm
- roll paper: length 100 m, sleeve 76 mm
- ream paper: length 175 m, sleeve 76 mm

Application:

- paper for large-format photocopies
- plotters
- architectural plans
- construction drawings
- test prints
- proofs
- full-color prints
- posters

Standard paper widths in rolls:

- 297 mm
- 420 mm
- 594 mm
- 610 mm
- 841 mm
- 914 mm
- 1067 mm

Computer paper — folded

This is a type of paper used for printing on dot-matrix printers.

Depending on customer needs, there are two basic groups of paper available:

- **single layer paper** - made of dust-free, wood-free offset material with a basis weight of 60g/m² or 70g/m² depending on demand.
- **multilayer paper** - consists of at least two or more layers of paper produced from self-copy raw material.

We make a folded computer paper of an individual format, overprint, selected raw material, and perforations, which meets the most unusual customer expectations.

Fax rolls

The fax rolls are made of heat-sensitive paper with a basis weight of 50 g/m² ± 6 g/m², from Bisphenol A (BPA) free raw material.

The paper manufacturer guarantees the durability of the printout for up to 7 years.

Labels on rolls

Self-adhesive labels on rolls are an indispensable element in the production of food products, clothing, pharmaceuticals, etc.

They are used for marking and are the first source of information, e.g. in logistics and correspondence; they consist of white top paper, glue, and base. The top paper is thermo eco, which is used in thermal printers and scales. The self-adhesive paper is coated with glue from the bottom and protected with an anti-adhesive (siliconized) paper. The product should be applied and stored in conditions of constant, moderate temperature, on smooth, flat, and dry substrates.

Special Labels

Self-adhesive color labels A4

Self-adhesive labels are supplied in the form of A4 sheets.

They are available in two variants:

- A4 210 x 297 mm - 1 label per sheet
- A4 with 24 labels in the shape of a circle with a diameter of 40 mm per sheet.

Available colors: orange, yellow, green, pink, and white.

Packing: ream = 25 sheets of A4, master pack 10 reams. Works with all types of dot matrix printers, inkjet printers, and most laser printers (see printer manufacturer's recommendations). For use in offices, households, schools, and industry

Colored warning labels A4

Self-adhesive labels are supplied as A4 sheets.

They are available in two variants:

- „TOP”
- „ATTENTION GLASS”

Packing: ream = 25 A4 sheets, bulk pack of 10 reams. They are help mark cartons with contents where special care must be taken. For use in offices, households, schools, and industry.

Job prints

Emerson branded job prints:

- compliant with current legal standards
- made of the highest quality raw materials on offset or self-copy paper
- 5-year guarantee on copying ability self-copy paper
- 25-year durability of copies
- easy identification - individual code printed printouts available on the cover:
- accounting,
- financial,
- shipping,
- customs,
- warehouse and others

The paper used to produce Credit Transfer Instruction forms has properties that take into account the hardware requirements of devices that process completed forms.

Office supplies

Courier envelopes

Transparent foil envelopes with a self-adhesive closure.

They are widely used by forwarding companies and warehouses of various companies. The envelopes are used for e.g. waybills, documents, warranty cards, manuals, etc. Documents inserted into the courier envelope will remain with the consignment even after many handling operations during the transport process. The envelope additionally protects the contents from moisture, dirt, or other damage during transportation.

Available in C4, C5, and C6 format.
Package of 500 pieces.

Safety envelopes

The security envelope is used for transporting and storing particularly valuable mail such as bank deposits, secret documents, keys, etc.

The security system used in this envelope protects the contents from interference by third parties. Any attempt to open the envelope will leave visible signs of interference with the contents. Any opening of the envelope is irreversible.

- available colors: white, transparent
- available formats: B4, B5
- packs of 1000 pieces., (i.e. 5 packages of 200 pieces, including 4 small packs of 50 pieces each)

Bubble envelopes

Standard bubble envelopes for everyday mailings, available in 11 formats, in white.

- Outer layer of white craft paper bleached without chlorine (ECF)
- Inner layer of bubble wrap
- Trifix closure (permanent closure, peel-off closure, and punched underneath the clip closure)
- Printed with water-based inks (Aquaprint)
- Trimmed flap corners

Assortment description	Unit of sale

CD bubble envelopes width 200mm height 175mm (size 11)	1 carton = 200 pieces

Foil envelopes (foil packs)

Courier foil envelopes are special envelopes made of strong LDP foil.

They are durable, resistant to damage and tearing, making the contents of the envelope protected against moisture, dust, dirt and weather conditions.

Commodity code	Commodity name
AFFOL45/55x50	Foil pack 45x55 cm pack. = 50 pieces
AFFOL40/50x50	Foil pack 40x50 cm pack. = 50 pieces
AFFOL31/42x50	Foil pack 31x42 cm pack. = 50 pieces
AFFOL26/35x50	Foil pack 26 x35 cm pack. = 50 pieces

Cardboard envelopes

Imagine an envelope that is as strong as a cardboard box, and the box is as flat as the envelope.

This sturdy corrugated cardboard shipping package, which opens wide along bend lines that form a rectangle, can withstand a heavy impact. The delicate contents, are securely wrapped in durable material. Use a packaging solution that is practical for both sender and recipient: it is easy to pack and - thanks to the adhesive strip - easy to close. The packaging is also easy to open, with the recipient simply pulling on the tear-off bar. If the contents are a little thicker, this is no problem because the pocket expands to the height of the contents without distorting the pack.

Brown paper envelopes

The packaging is made entirely of special kraft paper and is therefore fully recyclable.

It has two self-adhesive strips and a tear strip, which makes closing and opening easier, even for return shipments. Your customers will appreciate its high-quality and environmental friendliness. By using our bags, you reduce packaging material consumption, as well as volume, weight and transport costs compared to rigid cardboard packaging. Thanks to the use of recyclable paper, you will also reduce your impact on the environment. Our product is the ideal solution for goods that do not require rigid packaging or are shipped with existing original packaging, such as clothing, footwear, accessories, cosmetics, consumer electronics and many others.

Stretch foil

Transparent and black stretch foil provides optimal stabilization of courier and pallet shipments.

It combines durability, strength, and flexibility. It is indispensable in warehouses, stores, wholesalers, and industry. The offer includes manual film for manual wrapping of goods on pallets and industrial film on individual requests.

There is a possibility to produce film according to individual customer needs in terms of width, length, color, purpose.

We also offer mini-wraps intended e.g. for warehouses, offices, mail-order sales. Perfect for securing parcels in transport, economical (much lower consumption due to savings on corners, edges).

Receptive rubber bands

Receptive rubber bands are commonly used in the food industry, agriculture and horticulture, offices, banks, pharmacies, households, and many other branches.

Rubber bands are:

- durable,
- elastic,
- stretchable
- made of material with 60% rubber content

Available colors: white, red, green.
Package 1 kg.

Folders

Colorful folders with elastic band

- Weight 300 g/m²
- Made of thick recycled paper
- Colored and varnished on one side
- Equipped with a rubber band along the long side
- With three inner flaps to prevent documents from falling out, bottom and top glued
- Available in: yellow, red, black, blue, green
- Format A4

White tied folders

- Weight 250 g/m²
- Made of acid-free recycled paperboard pH >7.5, alkaline reserve >0.4 mol/kg
- With three inner flaps protecting documents against falling out
- Format A4

Ziplock Bags

Ziplock bags are used to store small items.

Ziplock bags are ideal for transporting small parts in bulk when it is important that their contents stay together and do not get lost. They are ideal for storing herbs, spices or dried fruit, jewellery.

Advantages of our ziplock bags:

- high-quality of the ziplock
- wide range of sizes
- approved for contact with food.

Available in standard and premium versions.

Nexxt standard chemicals

Active Kitchen Foam

Foam for cleaning kitchens with a pleasant fresh fragrance. Active foam formula is ideal for cleaning all surfaces in the kitchen, such as sinks, countertops, stoves, microwaves, and other kitchen equipment and washable surfaces. The liquid is designed for the current removal of dirt, stains, and food residues. Does not leave streaks and runs.

Capacity: 1l, 5l.

Active foam for the bathroom

Multifunctional foam for bathroom cleaning and care. It perfectly removes dirt. The active ingredients of the foam perfectly deal with soap scum, water spots, greasy stains, and other contaminants, filling the bathroom with a fresh citrus scent. It does not leave streaks and prevents the re-deposition of dirt.

Capacity: 1l, 5l.

Active agent for the toilet

Acidic preparation for cleaning toilet bowls. Contains detergents and organic acids, effectively removes limescale deposits, rust stains, and dirt, without damaging the ceramic surface and fittings. The product leaves hygienic cleanliness and a pleasant, fresh scent. The product contains citric acid.

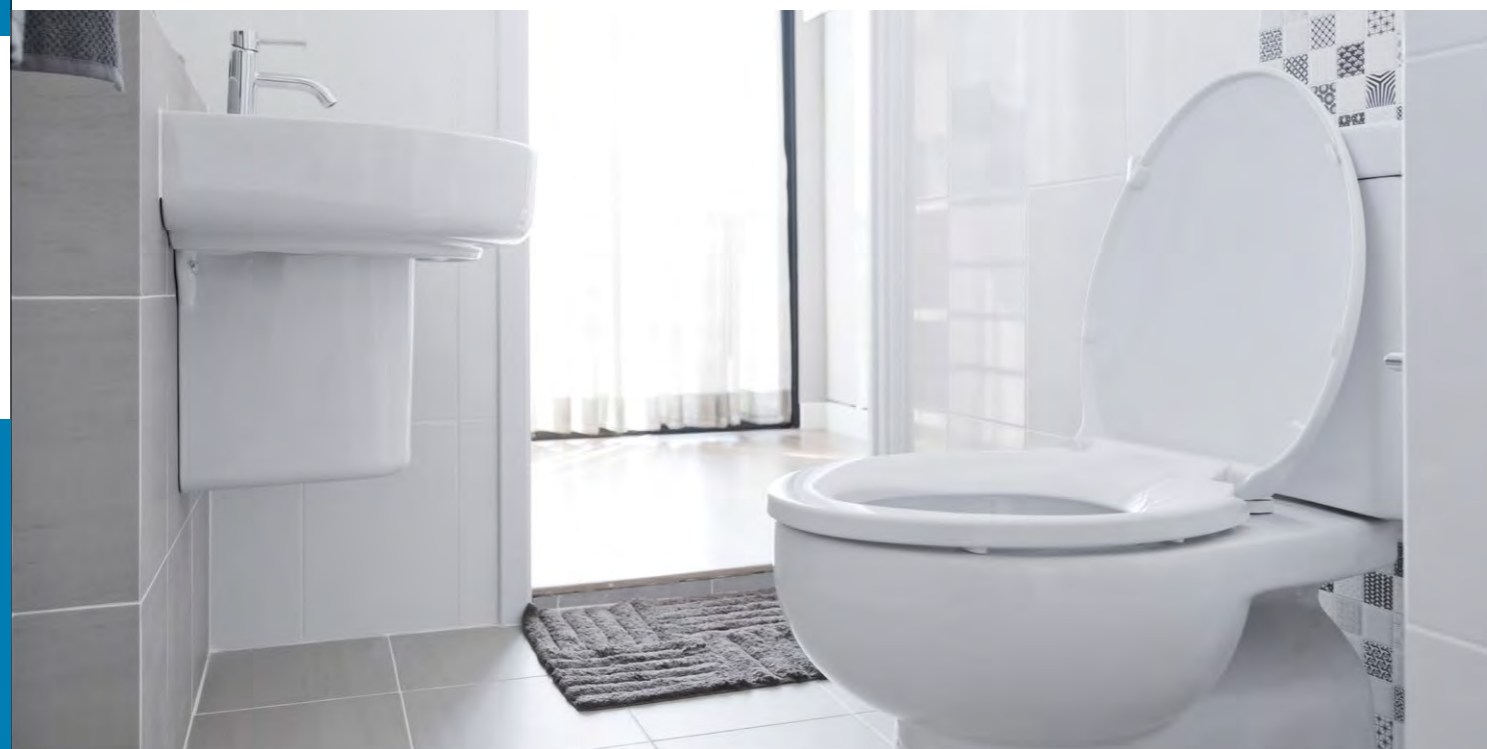

Capacity: 1l, 5l.

Liquid descaler for household appliances

A concentrated, specialized agent based on ammonium and methane sulphonic acids, designed for removing mineral deposits. In the case of hard water, it ensures that the maximum efficiency of machines and equipment is maintained for a long time. Odor-free and dye-free, absolutely safe for food products. Removes water, milk, and beer scale from any surface (glass, ceramics, polyethylene, polypropylene, Teflon, enamel). Does not contain acids: hydrochloric, phosphoric, nitric, sulfuric.

Capacity: 250 ml.

Specimen for cleaning foaming systems

A specialized agent for cleaning milk frothing tracks in coffee machines. When used regularly, it effectively dissolves the remains of dried milk, milk sediments, and bacteria contained in them. It keeps the milk aeration nozzle clean and guarantees that the milk frothing system works properly. The product is ideal for espresso machines with the Cappuccinatore system. Its use does not in any way affect the quality and taste of the coffee served.

Capacity: 250 ml.

Active grill cleaning foam

A highly alkaline agent for intensive cleaning of grills. Effectively removes burnt-on fat and grill residues. It uses potassium hydroxide which is less destructive than sodium hydroxide and its liquid form is more effective than any powder. The liquid is dedicated for stainless steel and cast iron surfaces.

Capacity: 1 l.

Specimen for manual dishwashing

The product is intended to wash by hand all kinds of dishes and other kitchen utensils. It removes grease and protein contamination of food origin. It does not leave streaks or stains and does not damage the washed surfaces. The amount and type of surfactants used makes the product highly concentrated and therefore very efficient.

Capacity: 1 l, 5 l.

Active floor cleaner

Professional and efficient liquid for cleaning and maintenance of floor surfaces and water-resistant floors. Quickly and effectively removes stains typical to floors. It does not leave streaks, dries quickly, and gives shine. Contains a solvent that greatly facilitates dirt removal.

Capacity: 1 l, 5 l.

Active agent for cleaning grout

This liquid perfectly cleans greasy and stubborn dirt from surfaces resistant to alkali and solvents. It removes dirt, grease stains, and lime deposits from grout and joints between floor and wall tiles. Also cleans all surfaces from soot, soap scum, and mineral deposits.

Capacity: 1 l.

LCD screen cleaner

Liquid designed to clean computer monitors, TVs, LCD screens, tablets. It easily removes dirt, dust, fingerprints, and greasy stains. The liquid has antistatic properties and does not leave streaks or streaks.

Capacity: 500 ml.

Creamy hand soap

Special, creamy liquid soap for everyday use to wash your hands and body. Its formula is based on mild washing agents which prevent excessive drying of the skin. It leaves a delicate protective layer on your hands. It has a pleasant fragrance and pH is neutral for the skin.

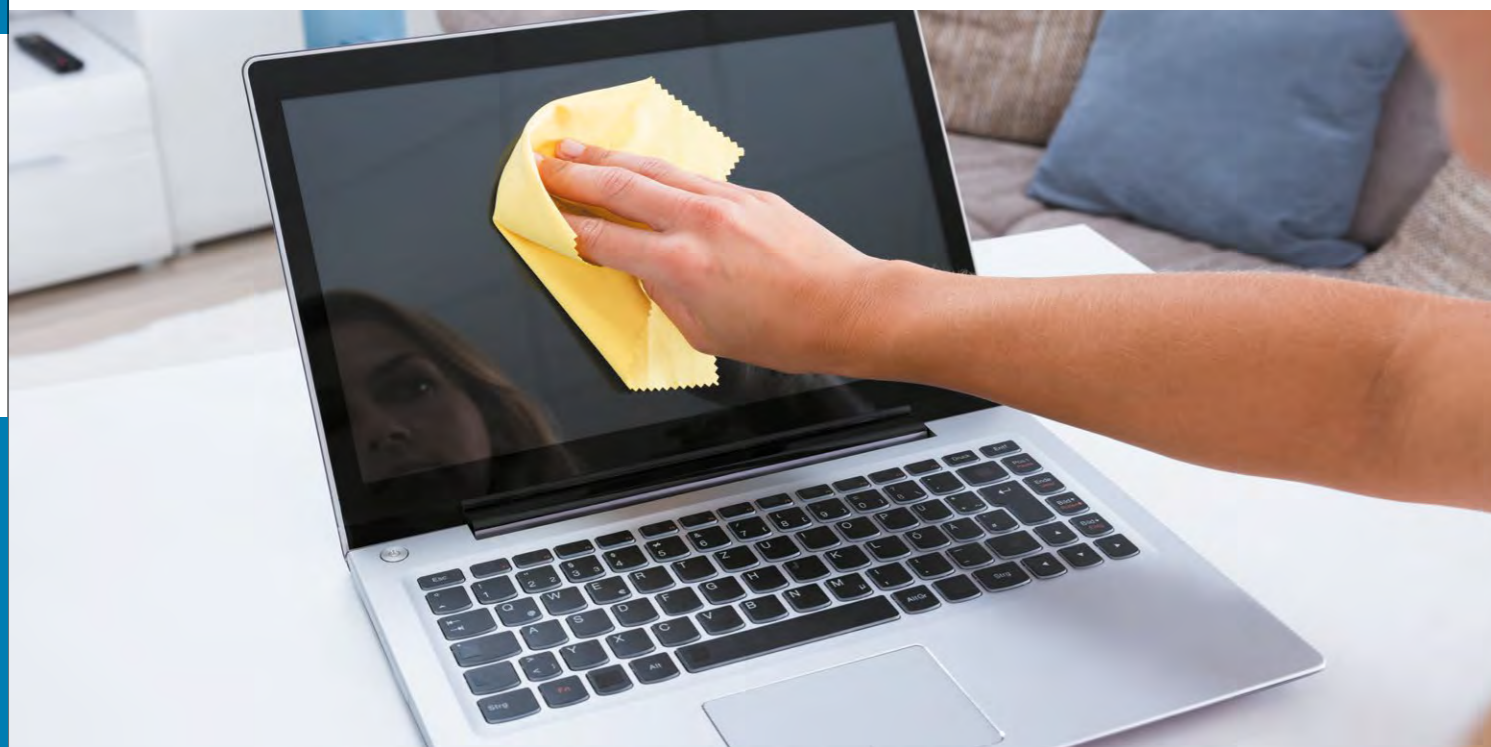

Capacity: 500 ml, 5 l.

Active glass and mirror cleaner

A specimen for cleaning windows and other smooth surfaces. It contains carefully selected surfactants and solvents with excellent solvating properties, which reduce surface tension so that the liquid easily removes stubborn smudges, fingerprints, and insect marks. After its use, you will be left with a fresh fragrance and perfectly shiny surfaces where dust will not settle anymore.

Capacity: 1 l, 5 l.

Nexxt covid chemicals

Surface Disinfectant

Special liquid (alcohol-based - 70%) for disinfecting rooms, walls, waiting areas, office passageways, storage rooms, reception areas, health care facilities, means of transport, and handles. Directions for use: Use the undiluted liquid for cleaning and disinfecting. Wash mechanically or manually. After disinfection, it is not necessary to carry out additional ventilation of rooms.

Capacity: 500 ml.

Antibacterial hand soap

Application: for washing hands and body

Advantages:

- antibacterial protection
- pH neutral for the skin
- professional care

Capacity: 500 ml.

Soap with an antibacterial agent

This special liquid soap with an antibacterial agent is intended for daily use for hands and body washing. Its formula is based on mild washing agents, does not dry out the skin, removes bacteria and germs. It leaves a delicate protective layer on your hands. It has a pleasant fragrance and pH neutral for the skin.

Capacity: 4 l.

Disinfecting hand lotion

Disinfecting liquid on an ethanol basis intended for use in situations and places requiring increased precautions as regards hygiene to hands, without the use of water. Contains ethanol 75g/ 100g, dlimonene, Linalol

Capacity: 500 ml.

TPE gloves + tear-offs

Emerson plastic gloves

The gloves are universal, fit both left and right hands. Suitable for use in the food industry, cosmetic industry, and household. Ideal for stores, gas stations, supermarkets, bakeries, grocery stores.

100% synthetic TPE gloves

Latex-free, powder-free, vinyl-free. TPE is an efficient and cost-effective alternative to blends of latex, silicone, and polyvinyl chloride (PVC). The thermoplastic elastomer is environmentally friendly as it is made from non-toxic, biodegradable, and recycled plastic. TPEs also consume less energy during production, further reducing our impact on the environment.

Replace plastic packaging for eco-friendly!

Appearance? Function? Durability?
Our packaging is no different from plastic products in this regard.

What characterizes our products?

- ✔ Our products consist of natural materials that can be consumed by microorganisms.
- ✔ They are quickly recycled for reuse.
- ✔ They do not generate waste. They do not produce harmful chemical elements or gases during decomposition.
- ✔ Our products are comfortable, functional and durable. They perform just as well as their plastic counterparts.

We take an individual approach to each order and are happy to tailor to your needs! We create ecological prints on our products.

02

We specialize in standard products for the office-service industry as well as in dedicated premium solutions requiring individual approach and creativity.

Our staff will advise you on production cost optimization (help you choose raw materials, formats, and printing technology).
